## Projects

### FoArch Admin Panel

Description: foArchs is a versatile social platform designed to connect professionals, foster growth, and create opportunities. Whether you're seeking jobs, generating leads, or sharing posts, foArchs provides a dynamic space for networking and career advancement. Join a community where ideas thrive, connections are made, and every interaction brings you closer to your goals.

Technologies: [React.js, Redux, REST API, etc.]

### Heaven Celebrations Admin Panel

Description: Lets you book customized theater spaces by the hour for any occasion. Tailor your event experience with personalized setups and amenities, ensuring a unique and memorable celebration.

Designed and developed an admin panel using React.js for booking theater spaces. Integrated features for managing bookings, customizing setups, and handling event amenities.

Technologies: [React.js, Bootstrap, etc.]

### Jungly Matka Admin Panel

Description: Designed and developed the admin panel for Jungly Matka, a betting app, allowing administrators to efficiently manage users, monitor betting activities, and oversee app operations. The panel is built with a focus on usability, providing intuitive navigation and robust functionality to ensure seamless management of the app's backend processes. This project involved creating a secure and responsive interface that meets the needs of the app's administrative team.

Technologies: [React.js, Bootstrap, etc.]

### Androbim Services Website

Description: Crafted the project showcase website using React.js, highlighting various projects with detailed descriptions, responsive layouts, and smooth navigation, and animations. (<https://dev.androbim.in/>)

Technologies: [React.js, Bootstrap, etc.]

### Vijayalaxmi Jewellers

Description: Developed a visually appealing and responsive website for Vijayalaxmi Jewellers using HTML, CSS, and JavaScript. The site showcases their exquisite collection of jewelry with static content, offering users a seamless browsing experience. Focused on creating a user-friendly interface that highlights the elegance and craftsmanship of their products. (<https://vijayalaxmijewellers.com/>)

Technologies: [HTML, CSS, JavaScript, Bootstrap, etc.]

### Vlog Call App Admin Panel

Description: Bridges the gap between fans and celebrities, offering unique video and voice call experiences. Connect directly with your favorite stars, enjoy personalized interactions, and create memorable moments through our easy-to-use platform. Created a user-friendly admin panel in React.js that connects fans with celebrities.

Focused on creating personalized interaction features and managing the user experience effectively.

Technologies: [React.js, Bootstrap, etc.]
